

**Aqueous Transmission Intro**  
**Incubus**

Okay, I ve seen alot of tabs, but I don t think they sound quite right.  
Here s the way I play it. Also, pluck near the bridge to give that twangy sound.  
It sounds just great.

Tuning: Drop D (DADGBE)  
~ = vibrato (wiggle the string)

```
e-----  
B-----12-10-----  
G-----11~-----  
D-----9--7---9-7-9-----9-7-9-----  
A-----0-----0-----7-----7-----7-----  
D---0-----0-----7-----
```

Listen to the song to get the right flow. That s all for now.
