Umm its ok if the solo bit makes no sense, cause i dunno how to tab it so it makes sense. The 4h5p4h5p4h5 bits are supposed to be done really quickly. I think they re called thrill , where you hammer on and pull off rapidly.

- repeat verse
- repeat chorus
- bridge (will be added when i have the time)
- outro (use chorus)

\*well ill try to add the bits that i missed like the bridge and the lil outro bits, but til then hope sum1 can tab a better version.
