And it s a miracle we ever learned to live

Drain that land
For a better plan
Sugarcane and the civil man
But now the ringin dead them pines
Planted in that time
We gonna keep on killin till they get it right

A thousand tides, and
A thousand waves
Takin it all away

It ll come back in
We ll be gone by then, oh
And it s a miracle we ever learned to live

I remember the wind
As it was settlin
And every sun goin down was a picture then
But we look back at em framed
They all look the same
There s no sense of time, no sense of pain

A thousand tides, and
A thousand waves
Takin it all away

And it ll come back in
We ll be gone by then, oh
And it s a miracle we ever learned to give
