

## Electric Lights Infernal

**Am**       **D**               **F**               **G**  
People tell me im far too obseesed, but they don t  
**Am**       **D**               **F**               **G**  
Understand how it feels to be me, and i won t  
**F**                               **G**  
Be told by others what i should nt like  
**Am**                               **G**  
I just feel right when i let myself go

**A**       **D**               **F**               **G**  
It can feel me with pride and excitement inside  
**A**       **D**               **F**               **G**  
Such a thrill to be filled with the joy and delight  
**F**                               **G**  
How could anyone not feel the same?  
**Am**                               **G**  
Oh, they don t see...

**F**     **G**    **A**  
That there is something on my mind  
**F**     **G**       **A**  
It is a world they leave behind  
**G**     **Em**  
And it will always draw me closer

**A**       **D**  
I want electric light  
             **F**       **G**  
That flashes away  
             **A**               **D**  
I want my heels sky high  
             **F**       **G**  
I can t run away  
             **F**               **G**               **A**  
And I say uhh, ahh and baby come play  
             **F**       **G**               **A**  
And I know just why I wanna stay  
**G**  
Cause on a disco night everything is all right
