

Maybe Its Just Me
Ingram Hill

There is a pretty good tab on here for this song that works ok, but if you put a capo on your second fret you can play open chords instead of bar chords

The chords you need are as follows (with reference to the capo):

Verse: **G**, **Em**, **C**, **D**

Chorus: **C**, **D**, **Em**, **G**

Play the C this way: x32033

Play the D like this: x54055

The intro is just the verse

Verse 1:

G

on the radio this morning

Em

They played our song

C

and i think back to the good times

D

& i wondered what went wrong

G

miscommunication?

Em

or cause you had no faith in me?

C

lack of inspiration?

D

or maybe, maybe it s just me

Verse 2:

G

there s life that surrounds me,

Em

but still i cannot see

C

i just can t make my heart fall for

D

beauty endlessly

G

i don t know what i m feeling

Em

it s not right, it can t be

C

i try to find someone to blame

D

but maybe, maybe it s just me

G Em C D

Maybe its just me

Chorus:

C

maybe you were right to find you re

D

way out of my life

Em

you found comfort elsewhere while i

G

held on way to tight

C

but i find no reason why i

D

can t be satisfied

Em

G

perhaps cause i can t have you

Ok, there you go. Pretty simple. Im not sure the chord i labeled as D is actually a D, but to make it you just slide the C up two frets. The rest of the song is exactly like this, there is one more verse and chorus. The outro is just the chorus repeated a couple time. Enjoy.
