

If You Really Love Nothing  
Interpol

[Intro]

E C#m G#m G#m

[Verse 1]

If you really love nothing  
On what future do we build illusions?  
If you really love nothing  
Do we wait in silent glory?  
If you really love nothing  
What part of betrayal do you wish to deny?

[Chorus]

When I find my home  
The next artery  
Splendid, I bled my whole life  
So it s probably a kiss  
Goodbye then

[Bridge]

E C#m G#m G#m
