VERSE 1  
\*\*\*\*\*  
What began as hope  
Became the fate of many nations  
Founded on a lie believed by everyone  
Slandered and betrayed  
A character assassination  
Watch the guilty fade  
Now the work is done

VERSE 2  
\*\*\*\*\*  
Ghosts of early days  
Gather round the later rivals

All parade upon the earth to which they re bound  
Silent in their course  
They steal across the icy stations  
Words are useless now  
They fall upon the ground

BRIDGE

\*\*\*\*\*

And in the end  
When other days have passed you by  
If beauty has a name  
Waiting beneath the ruby sky  
One and the same  
Wanting to keep the pain away  
In errors made again  
I can see everything get closer every day
