

Thousand Miles
Iron & Wine

Capo on the 1st. Classic Sam Beam, all based around **C**, **G**, **F** and **Am** shapes.

C **G** **F** **C**
Pull the braid from your hair, so it falls down your back
C **G** **F** **C**
I just passed Spartanburg, cigarettes on the dash
C **G** **F** **C**
Will you wait on the swing, in the front of the house?
C **G** **F** **C**
Or the steps of the porch in a white cotton blouse?

Am **F** **Am** **G**
Thousand miles that I drove, thirty more left to go
Am **F** **Am** **G**
Will you cry when you wake, when you see me today?

Is your father at home? Does he know where Ive been?
He dont like me because I remind you of him
Lets just drive to the point, watch the sky lose the light
Ive been gone far too long not to kiss you tonight

Thousand miles that I drove, thirty more left to go
Will you cry when you wake, when you see me today?
