She Said
Itchy Poopzkid

Hi guys!
I am absolutely not sure about this one. Especially in the chorus the chords could
actually be in a completely diferent order. Honestly, my version sounds good to me, but there
are tons of diferent ways to play it.
Instead of playing C# B F# G# and then reverse G# F# B C#, you can also play either only
the first or only the other chord-order. Tell me which way you prefer playing.
Like always, send me requests, corrections, questions etc.
Please rate. :)

No capo.

And the girl by my side I can hardly believe it

I can call myself happy that I made her mine

What the hell was I thinking or was I just blind

At a time when I could have had anyone
G#
I left off with this guy and he gets nothing done
