Oooh...

A headache minus pills  
And a torture of skin  
I m wearing Suede, wait, rain!  
Would you please let me in?  
She figured me out  
But she figured me wrong  
Now my lady-friend is gone

A tickle - A tackle  
A pppunch in the head  
I had to get, get away but my tires were flat  
The next morning  
I had just this one thing to do  
But the alarm clock broke in...

...to be hones I m amazed  
Obstacles along my way  
Biting tongues and fingernails

[2x]  
Situations have been here forever  
Realizing this now more than ever  
I am taking more than I am giving  
This is living, living, living, living

hoff es stimmt alles
