Running the streets

Now we separated in two  
**B F#**  
Oh we was burning up the block

And everybody know when we step in the spot, ohh

VERSE 2

You was the beat onto my top line

Put us together

And you offer it the rewind

See, you gave me a purpose

Now I m getting nervous

That my heart will never sing again

Oh, when we was burning up the airways

They know us from the Virgin Islands to the U.K.

See, we was on our way to the platinum and gold

Never thought that you d go , but you did yeah

Yeah, You did

PRE-CHORUS

Oh and baby you left and sailed away alone (Yeah, alone)

And now you got me trapped up on this island

With no way to get home

CHORUS 1

And I dont wanna go, go

I dont wanna go, girl

I dont wanna no, no

I dont wanna it, down low

I dont want to walk this earth

If I gotta do it solo (solo)

CHORUS 2

Cuz I was so high (was so high)  
And now I m so low  
And I dont wanna walk around alone, (solo)
