

Back From Nowhere

Izzy Miller

VERSE:

**G** **C** **G**  
I can see out the windows that the walls are closing in

**C** **G**  
It s too dark outside and I can t seem to begin

**C** **G**  
To tell you how it feels to see everyone change

**C** **G**  
When I m still standing here, and I m the same

CHORUS:

**D** **EM** **C**  
I m back from a place that nobody knows

**D** **EM** **C**  
A lonely land where nobody goes

**D** **EM** **C**  
I ve spent all of my days in despair

**D** **EM** **C**  
I m back, back from nowhere

I guess I can leave now that everyone s gone  
Until they can see that I m nothing but withdrawn  
From a world in which I just fade away  
Because I ve been hurt and I ve been played

I m back from a place that nobody knows  
A lonely land where nobody goes  
I m just now able to start to repair  
I m back, back from nowhere
