

Where To Land  
Izzy Miller

**F#**                    **B**                                    **C#**  
I ve been thinkin about you baby  
**F#**                    **B**                                    **C#**  
I ve been drinkin just a little too much  
**F#**                    **B**                                    **C#**  
In between the promises and sad songs  
**F#**                    **B**                                    **C#**  
I feel as if I m losing my touch

**F#**                    **B**                                    **C#**  
I ve been laying around lately  
**F#**                    **B**                                    **C#**  
I ve been just a bit on edge  
**F#**                    **B**                                    **C#**  
Somewhere out here in these spotlights  
**F#**                    **B**                                    **C#**  
I feel myself slipping off the ledge

**B**                    **C#**                                    **F#**  
And you re a million miles away from here  
**B**                    **C#**                                    **Ebm**  
I can t figure out where I stand  
**B**                    **C#**                                    **F#**  
Some days I feel like I m fading  
**B**                    **C#**                                    **Ebm**  
Others, I don t know where to land

You ve been thinkin about leavin  
And I ve been thinkin of fallin apart  
But there s numbers on the wall  
I guess I can always buy a heart

And you re a million miles away from here  
I can t figure out where I stand  
Some days I feel like I m fading  
Others, I don t know where to land
