

**Find A Way**

**J-five**

<http://www.myspace.com/johnnyfivemusic>

**Fm**

There s a light at the end

**C#**

Of the tunnel

Humble beginnings

**D#**

In a fight to the finish

**Cm**

Hangin on with a grimace

**C#**

Give the look of God

**Bbm**

When told faith is fraud

**C**

Cause you gave it all you had  
So why won t they applaud

Wrong again

Bitter sweet

Hard to stomach if you love it

Not friend

But a puppet with strings attached

Dance to the beat

Of a dying heart

Change your pace

Cause if I keep on movin  
I might find a way

I m alive

I ll give you all my time

I ll put it all on the line, hey

Find a way to the light

Why s there gotta be a test

On every breath I m holdin

To make it

I ll find a way for you

There s a long road,

But no one will take it

I ll find a way

Why s there gotta be a test

On every breath I m holdin

To make it

I ll find a way for you

There s a long road,

There s a long road,  
Why won t you take it

Can you feel the nails digging  
Deep inside of your skin  
Prove yourself until your dead  
The end, but you didn t begin  
And if someone doesn t reach out  
Soon, you might lose it  
Cause you humbled yourself just to be  
Proved you can do it, don t do it  
Don t give up to get it back  
Fuck that, put it to your chest  
And let your heart attack  
Come back  
I ain t done tryin , you re killin me  
Softly with your words and I love dyin

I m alive  
I ll give you all my time  
I ll put it all on the line, hey  
Find a way to the light

Why s there gotta be a test  
On every breath I m holdin  
To make it  
I ll find a way for you  
There s a long road,  
But no one will take it  
I ll find a way  
Why s there gotta be a test  
On every breath I m holdin  
To make it  
I ll find a way for you  
There s a long road,  
There s a long road,  
Why won t you take it
