Intro: **F# B**

F#

I ve been looking til my eyes are tired of looking

B

Listening til my ears are numb from listening

F#

Praying til my knees are sore from kneeling

B

On the bedroom floor

F#

I know that You know that my heart is aching

B

I m running out of tears and my will is breaking

F#

I don t think that I can carry

B

The burden of it anymore

B

All of my hopes and my dreams and my best laid plans

B F# Db/F

Are slowly slipping through my folded hands

Chorus

F# C#

So I m gonna lay it down

D#m C#

I m gonna learn to trust You now

B F#

What else can I do

B F# Db/F

Everything I am depends on You

F# C#

And if the sun don t come back up

D#m C#

I know Your love will be enough

B F# Db/F

I m gonna let it be, I m gonna let it go

F# B

I m gonna lay it down

I ve been walking through this world like I m barely living

Buried in the doubt of this hole I ve been digging

But You re pulling me out and I m finally breathing

In the open air

This room may be dark but I m finally seeing

There s a new ray of hope and now I m believing

That the past is the past and the future s beginning to
look brighter now

Cause all of my hopes and my dreams and my best laid plans
Are safe and secure when I place them in Your hands

Chorus

So I m gonna lay it down

I m gonna learn to trust You now

What else can I do

Everything I am depends on You

And if the sun don t come back up

I know Your love will be enough

I m gonna let it be, I m gonna let it go

I m gonna lay it down
