

Maybe She'll Get Lonely
Jack Ingram

Its all downstrums for the verses. For the D s in between the lines play 3 downstrums quickly, on the third strum pull off on the high E string and switch to the next chord. Listen to the song and you ll get the idea. Its a great song.

Maybe Sheâ€™ll Get Lonely-Jack Ingram

INTRO: **A D E D** X2

A **D E D**
She slammed the screen door Kicked up the dust pullin out of here
A D E
Probably headed for Baton Rouge Her taillights just disappeared
F#m E
I tried everything within my power to get her to stay
F#m D/F# E
Guess all I can do right now is get on my knees and pray

Maybe she ll get lonely
F#m E
Maybe she ll turn that wheel around
A E
Maybe she ll miss me
F#m E
Before she hits the edge of town

I can t live without her

Yeah the only hope that I ve got left is
D/F#
Maybe she ll get lonely

A D E D

A D E
And if she makes it a hundred miles That means she s breakin free

It ain t lookin too good right now before she s too far gone
