Go On Jack Johnson [Intro] E Bm F#m A Е In my rear view Bm I watch you F#m Watching the twilight Α Behind the telephone lines Е With nothing to prove Bm Or to assume F#m Just thinking that your thoughts Α Are different than mine Е Bm In my rear view Bm I watch you F#m I gave you your life Α But you give me mine Е I see you slowly swim away Bm Cause the light is leaving town F#m To a place that I can t be Α But there s no apologies C#m Just go on E Just go on в There s still so many things Α I wanna to say to you C#m But go on Е

Just go on B We re bound by blood that s moving A From the moment that we start C#m F#m From the moment that we start

## Е

I see your perfect little eyes Bm Watch the shadows of the clouds F#m And the surface of the ocean A Out the window of a plane E I get nervous when I fly Bm I m used to walking with my feet F#m Turbulence is like a sigh A

That i can t help but over think

## Ε

What is the purpose of my life Bm If it doesn t have to do F#m With learning to let it go A Live vicariously through you E You can do the same Bm It s the least you can do F#m Cause it s a lonely little chain A If you don t add to it

## C#m

So go on E Just go on B There s so many things A I wanna say to you
