

**Is One Moon Enough**  
**Jack Johnson**

[Intro] **D**

[Primeira Parte]

**D**

Is one moon enough

**D**

If I can see

**G**

With my cheap telescope?

**E**

**G**

Bet my neighbor has two or three

**D**

Down soon enough

**D**

What does it mean

**G**

If every time I look up

**G**

I see them

**E**

**G**

Laughing down on me?

[Refrão]

**A**

**G**

**D**

**D**

Take that moon or break across the sea

**A**

**G**

**D**

**D**

Everything I want s just out of reach

[Segunda Parte]

**D**

Is one moon enough

**D**

Well, it used to be

**G**

When I could see with my own naked eye

**E**

**G**

She was smiling down on me

**D**

Is one ever enough?

**D**

How could it ever be if my neighbor has more than me

**G**

And my moon

**E**

**G**

Just out of reach

[Refrão]

**A**                      **G**                                      **D**              **D**  
Take that moon or break across the sea

**A**                      **G**                                      **D**              **D**  
Everything I want is further from me

**D**                      **D**                      **D**  
Hmm, hmm, hmm

**D**  
Moon down soon enough

**D**  
Now I can see a million moons that think of

**G**  
Me and my moons

**E**                                      **G**  
Always following me

[Terceira Parte]

**A**                      **G**                                      **D**              **D**  
Take that moon or break across the sea

**A**                      **G**                                      **D**              **D**  
Everything I want is just out of reach (hmm, hmm)

**A**                      **G**                                      **D**              **D**  
Why s that moon always following me? (hmm, hmm)

**A**                      **G**                                      **D**              **D**  
Everything I want s just out of reach (hmm, hmm)

**D**                      **D**                      **D**  
Hmm, hmm, hmm
