

Never Fade

Jack Johnson

It took me a while to find this tab online and once I did I wanted to share it with you guys at Ultimate-Guitar.com. As far as I can tell This should be one point. The chords might not change right on the words but listen to the beat and

timing and you ll get it! If anyone thinks things should be changed either leave a

comment or post another version with the changes. I want everyone to be able to play this beautiful song as well as Jack Johnson himself!

Also I don t know if UG will allow this chords to change so I will always put the transposed version for the Capo on the 2 and/or 4 fret.

Capo 2 Chords:

B=A

D#m=C#m

F#=E

E=D

C#m=Bm

Dm=Cm

Capo 4 Chords:
