

**Chemical Courage**  
**Jack Savoretti**

hey i guess its my first one out soo be gentle :)

Tonight[A] has been long, I ve smoked every [C#m]breath,  
Tryin to feel so [Bm]alive, tempting [E]death,  
I ve smiled at the [A]angels, but I fear where they [C#m]live,  
I ve taken too [Bm]much but nothing to [E]give

[F#] My chemical [A]courage, has come to an [C#m]end...  
The night once my [Bm]lover is no longer a [E]friend.

Well tonight has gone wrong, cause I said what I said,  
I ve been left all alone, to lie in my bed.  
Thinking, I m just a fake, that nothing is real,  
If I m asking to be saved I must learn how to [A]kneel

Now my chemical courage has come to an end...  
The night once my lover is no longer my friend.  
Playin tricks on my eyes, shining light on my tears,  
I pray for a new day to hide all my[A] fears.

I can t find my way, back to where I felt safe.  
Now my chemical courage has come to an end,  
The night once my lover is no longer my friend.  
Playin tricks on my eyes, shining light on my tears

Now my chemical courage has come to an end...  
The night once my lover is no longer my friend.  
Playin tricks on my eyes, shining light on my tears,  
I pray for a new day to hide all my[E] fears.
