

No Man Is An Island
Jack's Mannequin

Hey guys! So this is my first contribution to an amazing song by Jack's Mannequin.

This song is on their album People and Things and it's a bonus track. Awesome band, beautiful song. Hope you enjoy!

Verse: **G, Em, C, G**

No man is an island
No man is a fool
When he finds himself a woman
And she helps him carry through
The days can leave you hungry
And the nights can leave you cold

No man is an island
When a woman's his to hold

Love can bring you riches
Love can give you pain
Love can dig you ditches
Get your wheels stuck in the rain
As long as your heart's beating
It should never beat alone

No man is an island
When a woman is his home

C **Em** **D**
I've been wandering the highway for days
D **C** **Em** **D**
Caught up in drunken displays
D **C** (once)
Love can be cruel
C **C** **G**
But I'm not an island I've got you

(Play original sequence 2x)

No man is an island

(play **C, Em, D** sequence)
I've been wandering the highway for days
Caught up in drunken displays
Love can be cruel
But I'm not an island I've got you

(original chords)

No man is an island
And no man is a fool
When he finds himself a woman
And she helps carry him through
Sometimes he is weary
Sometimes he is lost

No man is an island
When a woman s what he s got
No man is an island
Cause a woman s what he needs.
