

Enough Of The Night

Jackson Browne

Capo 3rd fret

C **G**
You used to stand on the tables
C **G**
You used to shoot out the lights
C **G**
You used to stop trucks on I-19
C **G**
In your blue leopard tights
C **G**
You got the vote of your high school
C **G**
Most likely to exceed
C **G**
But not likely to ever get enough
C **D** **G**
Enough of what you need

C **G** **C** **G**
Enough of the night

C **G** **C** **G**
Enough of the night

C **G**
And now the carnival lights come down
C **G**
The sounds of laughter recede
C **G**
You sit and drink in this cardboard town
C **G**
The fast lane gone to seed
C **G**
You used to laugh about the damage done
C **G**
But there was no way to know
C **G**
How little distance you had actually come
C **D** **G**
And how far you d have to go

Em
It s tough to do, baby

C
It s tough to make it

Em
Oooh-mmmm

D
 When the heart is naked
Em
 It s tough for you, baby
C **G**
 It s tough for me, too
Am **G** **D**
 Without all this pain you see through

C **G**
 Now I want to see you smile
C **G**
 You know how it s just been awhile
C **G**
 Don t allow another night to close
C **D**
 On your empty cup, you ve had enough of those

C **G** **C** **G**
 Enough of the night
C **G** **C** **G**
 Enough of the night

C **G**
 You used to count on the miracles
C **G**
 The old shot in the dark
C **G**
 You used to wait for the setting sun
C **G**
 To help you hit your mark
C **G**
 You used to stand on the tables
C **G**
 You used to shoot out the lights
C **G**
 You dressed right out of the fables, baby
C **G**
 Like the Arabian Nights

C **G**
 But you were never the princess
C **G**
 More like the queen of the thieves
C **G**
 And my heart was never more than one of the many
C **D** **G**
 A queen receives

Em
 It s tough to do, baby
