

Rosie

Jackson Browne

[Verse 1]

                  D                                  G                  A                  D          G D  
well, she was standing at the load in, when the trucks rolled up  
          G  D          G D  
She was sniffing all around like a half-grown female pup  
G  D                  Bm  
She wasn't hard to talk to, looked like she had no where to go  
          D  G                  A                  D          G D  
So I gave her a pass so she could get in and see the show  
          D  G                  A                  D          G D  
Well, I sat her down right next to me and I got her a beer  
          G  D          G D  
While I mixed that sound on the stage so the band could hear  
G  D                  Bm  
The more I watched her watch them play, the less I thought of to say  
          D  G                  A                  D          G D  
and when they walked offstage, the drummer swept that girl away

[Chorus]

          G                  D                                  G  
but Rosie your alright (you wear my ring)  
          G                  D                                  G  
when you hold me tight (Rosie, that's my thing)  
          G                  D                                  Bm  
when you turn out the lights (I got to hand it to me)  
G (let ring)  G D          D A G, D A G  
Looks like it's me and you again tonight, Rosie

[Verse 2]

          D  G                                  D          G D  
Well I guess I might've known from the start, she'd come for a star  
          G  D          G D  
Could've told my imagination not to run too far  
G  D                  Bm  
with all the times that I've been burned, by now you'd think I'd learned  
          D  G          A                  D          D G  
that it's who you look like, not who you are

[Chorus]

          G                  D                                  G
