Chords/Lyrics  
Verse " **G Em C D**  
Chorus " **G D Em**  
Bridge " **C G F**

I've been thinking about this too long  
Hoping that I will find another way home  
I've been thinking about us for too long  
Knowing that I have no chance with someone like you

I've been holding out for too long  
I realize you're done thinking bout me  
Why don't you see

But if you hear this on the radio  
That means I'm lonely no more  
And if you hear this on your stereo  
That means I'm no longer yours

I've been shutting eye for too long  
I need wake up and take a look at reality  
I've been wanting this for so long  
Baby can't we try  
But is it too much to try  
Is it too much to try

But if you hear this on the radio  
That means I'm lonely no more  
And if you hear this on your stereo  
That means I'm no longer yours

Baby just give me one chance to see  
Baby just give me one thing one reason to believe  
Cuz I know  
Where this could go

But if you hear this on the radio  
That means I'm lonely no more  
And if you hear this on your stereo  
That means I'm no longer yours

But if you hear this on the radio  
That means I'm lonely no more  
And if you hear this on your stereo, that means I'm no longer yours
