Girl, just like magnet to steel

Your love - keeps pulling me in,

If its a battle I ll fight for you,

I have to win

To prove to you my love. is so deep within

Its even getting deeper

Since I reach prison

[Chorus:]

Dm A# C Am Gm Am

Longing for

My baby to love me more

What am I longing for?

Babylon release the Cure

What am I longing for?

My baby to love me more
What am I longing for?
Babylon release the Cure

[Verse 2:]

Dm A# C Am Gm Am
When, when, when, when?
Can we see each other again
When, when, when, when?
Can we see each other again
I know there s someone, must be there comforting you
Whenever you need a friend
I ll make you mine, give me some time, I ll surely make you mine
It may be long, now forever.
I vow, to get myself together
I love you baby, always on my mind, No matter the time.

[Chorus:]

Dm A# C Am Gm Am
Longing for
My baby to love me more
What am I longing for?
Babylon release the Cure
What am I longing for?
My baby to love me more
What am I longing for?
Babylon release the Cure
