repeat verse 1

when i said that i love you girl  
dont think im pretending  
its straight from my heart  
with the message that im sending  
im not like the rest of guys  
who hides their feelings  
i just want to be myself  
hurts me to know that youre with someone with someone with someone  
hoping to catch you  
if you fall with my hands  
with my hands  
i love you and i
