REFRÃO:

```
C
The messed up kids are on the corner

With no money

They sell their time they sell their drugs

They sell their body
F
And everywhere I see a sea of empty pockets

Beautiful girls with eyes so dark within their sockets
Em
So far away

              C
It s a washed out Saturday

              Em
The sky all pastel shades

              C
Under breeze block palisades
```

```
G              C              G
Lights are smashed, the streets are closed in the town

              C              G
Places no one really goes to hang around
```
