

## Slumville Sunrise

Jake Bugg

[Verse]

**E7**                   **A**  
The wind is beating on my window  
**E7**                   **A**  
I haven't slept all night  
**E7**                   **A**  
That drum just keeps on banging  
**E7**                   **A**  
They must be buzzing in the mind,  
**A**                           **A**  
bees in the hive, tell me when the morning arrives

**E7**                   **A**  
This place is just not for me  
**E7**                   **A**  
I say it all the time.  
**E7**                   **A**  
My friends they just ignore me.  
**A**                           **A**  
Tell me nevermind, waiting on your line for the Slumville Sunrise.

[CHORUS]

**Em**           **C**           **G**           **B7**  
Slumville Sunrise.  
**Em**           **C**           **G**           **B7**  
Nobody cares or looks twice  
**C**                           **G**                           **B**                           **Em**  
Shout away in the morning across this place where I was born in  
**C**                           **G**                           **B**                           **Em**  
Every bruise, every flower illuminated by the dawning

[Verse]

**E7**   **A**  
My face upon the concrete, the dirt is in my mouth  
**E7**   **A**  
I clench my fist and feet. I try to cry out loud  
**A**   **A**  
Make a sound, somethin' is keepin' me down

**E7**                   **A**  
This place is just not for me  
**E7**                   **A**  
I'll say it a thousand times  
**E7**                   **A**  
My friends they just ignore me

**A** **A**  
Tell me nevermind, waiting on your line for the Slumville Sunrise

[CHORUS]

**Em** **C** **G** **B7**  
Slumville Sunrise.  
**Em** **C** **G** **B7**  
Nobody cares or looks twice  
**C** **G** **B** **Em**  
Shout away in the morning across this place where I was born in  
**C** **G** **B** **Em**  
Every bruise, every flower illuminated by the dawning
