There are two way you can play the chords: You can play them the standard chords
or you can play them like this.
I like playing the ones below during the instrumental breaks and chorus then
barre
chords during the verses.

UPDATE: After playing this I realized that instead of the E listed below, you
can
play a regular open E then slide up to the B chord on the 9th fret listed below.

It makes it easier to play and it sounds better I think.

E	B	A
e --0-----0-----0-----		
B --9-----0-----0-----		
G --9-----8-----6-----		
D --9-----9-----7-----		
A --0-----9-----7-----		
E --X-----X-----X-----
