It $s$ not $100 \%$ correct, but it $s$ a lot closer to the recording than the other tab on here.

It should be pretty easy, so $I$ hope you get it quickly and enjoy playing it.

Note: The F\# is not an F\# chord, just the note (E string, second fret).

CAPO II

Chords: G\#, G, Bb, Eb, Cm, F\#, Fm

Mother war is kind

```
G# Bb Eb
```

Like hell but I am fine

Brother have you gone west
Have you followed through once yet
You are still younger how dare you forget
Brother war is best
In the morning when you ve had rest

## G\#

Like a lost dog between houses
Eb

## In the unknown open country

F\#
Line up at dawn to see who s missing
Fm
My age is a metaphor
Eb

## Bb

It only speaks of everything before

Daughter you wear my name
Those are my eyes keep em raised
I may have scars but I give more than I take
Daughter war is safe
Where you are far away
Lover are you gone
My heart has taken too much on
One octave lower than thunder it drums
lover war is done
In more ways than just one

Like a lost dog between houses
In the unknown open country
Like an outlaw now standing
At the foot of infinity
The sun is wild
And just in front of me

This is the short melodic part after the chorus. Listen to see how he picks out the
between chords.
