Coming To Get You Jamaram

Jamaram - Coming To Get You

G Em G Em G

Where are you going to run to when I come for you Cause coming to get you is what I do When your time is through

G D Em C G D

No no you can't get away from me Cause I will be there every night to tuck you in to your sheets I'll be there when you're ready to go

G D Em C D G

Because I was there to take your parents elders home

G Em G Em G

Do not be afraid when its getting late

Where are you going to run to when I come for you
Cause coming to get you is what I do
When your time is through
Everytime that I see you standing at the corner of your way
Its hard for me to leave you there
To ya a day to day

No no you can't get away from me
Cause I will be there every night to tuck you in to your sheets
I'll be there when you're ready to go
Because I was there to take your parents elders home
Do not be afraid when its getting late

You just gotta keep on walking
There is nothing you can do
You never gonna hear me talking
I leave that up to you
You can smell me in the autumn breeze
And I know that its not fair
But one day your gonna feel the freeze
And you'11 know that I'm right here

No no you can't get away from me Cause I will be there every night to tuck you in to your sheets I'll be there when you're ready to go Because I was there to take your parents elders home
