

Unconditionally

James Arthur

E She said, **B** It s all your fault
E
I said, It always is
B
She sang my favorite song
C#m
But with a little twist
A
Her lipstick, your collar, don t bother, angel
Am **E B**
I know exactly what goes on
E B
I know exactly what goes on

E She said, **B** I m walking alone this time
C#m
I ll be waiting all my life
B
Did it ever cross your mind just what you re doing?
A
All you ever had to see
Am
Was love me unconditionally
E
Oh, I won t go
B
I will live till it s over
E
Oh, I won t go
B
Until hell freezes over
C#m
And I ll be yours
B
And you ll be my supernova
A
Oh darlin , why was it so hard to see?
Am **E**
Just love me unconditionally

B
And after all your flaws
E
I still stay in this

There s no Santa Claus
