

When We Were On Fire

James Bay

Gm

Drifting apart getting harder to hold you
Days getting dark and the nights are growing cold

Eb F

Are we burning out?

Gm

Swept out of sight, rolling out on an ocean
Let s cut all the ropes and get lost in the moment

Eb F

If our hearts are alive, maybe then they might
Send us back to the sun

Eb Bb

Now I know, I know

D Gm

That we re losing light, our love is dying

Eb Bb

Out cold on the floor

D Gm

Like a fallen star that shines no more

Eb Bb Cm Gm

Take, take-a-me back to where we was before

Eb Bb

When we were on fire,

Cm Gm

fire

Gm

Head down heading under ground feeling wasted
Cold to the bone so alone I can taste it

Eb F

Let s light it up

Gm

The streets are alive now and everything s racing

Eb F

You re on my mind running in my veins, fueling the flame

Let s start it again

Eb Bb

And I know, I know

D Gm

That we re losing light, our love is dying

Eb Bb

Out cold on the floor

D Gm

Like a fallen star that shines no more
