

Hollywood
James Blunt

verse 1

She's gone Hollywood on me
She thinks everyone is watching,
It's all about drugs and money
and a back-door when she leaves
Whooo do you think you are?
You are just a little fish in a sea of sharks
From the past you are hiding
and you don't wanna be reminded

Chorus

Nooo you don't even know what you want, know what you got, noooo
I don't even think that I want what's left of your heart
I used to think that I can make you happy then you go and throw it right back at me
Noooo you don't even know what you want, know what you got

verse 2

She's got her jeans from the TV
But they don't include me
It's like all we have been through means nothing
And there's nothing left to see
Whooo do you think you are? Feels like I don't know you anymore.

We used to be friends and lovers

Em

And I miss that most of all
