I Won't Let You Go
James Morrison

Intro: **C**

C
 When it s black
                          Am
Take a little time to hold yourself
                          F
Take a little time to feel around
          C
Before it s gone

C
 You won t let go
                          Am
But you still keep on falling down
                F
Remember how you saved me now
             C
From all of my wrongs, yeah

C
 And there s love, just feel it

If there s life just see it
Am
 This is no time to be alone, alone, yeah
F G   **C**
 I won t let you go

C   **Am**
 Say those words, say those words like there s nothing else
                    F
Close your eyes and you might believe
                    C
That there is some way out
C   **Am**
 Open up, open up your heart to me now
                F
Let it all come pouring out
                       C
There s nothing I can t take

C
 And there s love, just feel it

If there s life just see it
Am

```
  This is no time to be alone, alone, yeah
F G           C
  I won t let you go
C                                                   Am
  If your sky is falling, just take my hand and hold it

You don t have to be alone, alone, yeah
F G           C
  I won t let you go

          Am        G               C
And if you feel the fading of the light
                F         G         C
And you re too weak to carry on the fight
            F         G             Am
And all your friends that you count on have disappeared
        C               F           C
I ll be here nnot gone, forever holding on

C
  And this love, just feel it
                        Am
And if this life won t see it

Sees no time to be alone, alone, yeah
F G           C
  I won t let you go
C                                                   Am
  If the sky is falling, just take my hand and hold it

You don t have to be alone, alone, yeah
F G           C
  I won t let you go

C
  I won t let you go, no
    F
I won t let
C
  I won t let you go, no
    F
I won t let
C
  I won t let you go, no
F           C
Won t let you go...
```
