Grand-daddy came home in a B-52

He was one of the brave and the proud and the few

D G D
Twenty-one guns helped us say goodbye
A G
I stood there in silence tryin hard not to cry
A Bm A D
As the preacher, he quoted, lines written in red
D A D
And then he folded his bible and in a broken voice, he said

[Chorus]

G D
There s only two people who s every died for me
A D
Laid down their lives just so I could be free
G D
They both went through hell, beared crosses and shells
A D
And both got back up again after they fell

G D
They never picked the fight, but they re there
A Bm
To pick up the pieces
G A D
God only knows who we d be without soldiers and Jesus

[Verse 2]

D G D
It seems like the news loves to run em both down
A G

But whenever we need em, they re always around

So don t hand me a party s political views

Cause they re a left side, a right side, and then there s the truth

[Chorus]

There s only two people who s every died for me

Laid down their lives just so I could be free

They both went through hell, beared crosses and shells

And both got back up again after they fell

They never picked the fight, but they re there

To pick up the pieces

[Bridge]

To me, they re both heroes for the path that they chose

Cause one fights for my life, one fights for my soul

[Chorus]

There s only two people who s every died for me

Laid down their lives just so I could be free

They both went through hell, beared crosses and shells

And both got back up again after they fell

They never picked the fight, but they re there

To pick up the pieces

[Outro]

God only knows where we d be without soldiers and Jesus
