Ex, ex
Ex, ex
Ex, ex
Ex, ex

**Bm                    D**
Saturday night and the streets are filling up
**A                    E**
Saturday night and my mates are calling up
      **Bm                         D**
Wondering where I ve been, where I ve been
            **A           E**
If I m ever coming out again, out again

**Bm                             D**
Guess I don t see the harm in just a couple drinks
**A                             E**
Guess I don t see the harm in having two or three
   **Bm                     D**
Probably do me good, do me good
                   **A              E**
 Cause I think of you more than I should, than I should
**Bm**
They think they re trying to help
       **D                  A**
Introducing me to someone else
              **E**
I play along  cause I haven t got the heart to tell  em
**Bm              D**
That if I dance with somebody
**A           E**
I might want somebody else
  **Bm          D**
And if I want somebody
**A                    E**
I might fall in love and forget what it was to be
**Bm                  D**
Wrapped in your arms so tightly
**A                  E**
To be your man so tonight I ll be
**Bm              D        A**
Dancing alone  cause I m afraid
          **E**
If I forget then you ll just become an ex

Ex, ex
Just another ex
Ex, ex
Just become an ex

Now I remember why this was a bad idea
Now I remember even less than when we got here
Memories, memories
I feel you slipping away from me, away from me

I almost wish they d play the song we used to sing
I almost bought some other girl your favourite drink
Had to stop myself, stop myself
Had to drink the lemon drop myself, drop myself

They think they re trying to help
Introducing me to someone else
I play along  cause I haven t got the heart to tell  em

That if I dance with somebody
I might want somebody else
And if I want somebody
I might fall in love and forget what it was to be
Wrapped in your arms so tightly
To be your man so tonight I ll be
Dancing alone cause I m afraid
If I forget then you ll just become an ex

Ex, ex
Just another ex
Ex, ex
Just become an ex
Ex, ex
Just another ex
Ex, ex
Just become an ex
