

Better Man

Jamie Campbell Bower

Hi there! This was a request and the hardest one ever!!
But I struggled through and I think I got it!! May need
some tweaking here or there, let me know:) Tabbed to this
version-

<http://www.youtube.com/watch?v=2Fy6YxPM98U>

*The intro (Em7) is just a continuous strumming of the open
E string of the Em7. When you go to the G on shelf it s
still muted but strumming the low strings EAD only and
continue that strumming until the pre chorus. There are some
very quick chord changes so play along with the song to get
it down.

(**Em7**).....

.....

You can cry to me like I m somebody else

G

And then you leave me alone to gather dust on the shelf of love

Em7

Showed you all of my faults and gave you all I had

G

And then you threw it away and told me to be a man,

But I was
