Jamie Cullum

Here you go. These chords should work well. Playing this with a guitar might be a little tricky as the song itself is pretty much piano-based. Give it a try! :)

Lyrics:

Everything I know is you
Let me tell you what we re listening to
I m a gentle soul I m sure
But on the stereo I m a dictator

Do you even have a tape machine?
To facilitate my plastic dreams
All the things that I have seen, from
Morrissey to John Coltrane AHHH!...
Cinematic Orchestra, De La Soul the Shangri-La s
An adolescent love letter, a sparkling jewel of manual labour

I ll make you a mixtape that s a blueprint of my soul

It may sound grand but babe it s all you need to know
I ll make you a mixtape that will charm you into bed
It details everything that s running round my head

That s running round my head

Fondling, record and play
Without you it s records night and day
This ain t no disc of MP3 s
This one handmade, fashioned lovingly

Plant the rythm in your bones
You re the only angel in headphones
My love can paint a million tones
From Nine Inch Nails to Louis Armstrong
So resurrect your stereo
And the swathrs of melodies will flow
Thelonious, Maurizio
I tell you babe it will make my heart glow

I ll make you mixtape that s a blueprint of my soul
It may sound grand but babe it s all you need to know
I ll make you a mixtape that will charm you into bed
It details everything that s running round my head

That s it! :)
