

Why Do Today What You Can Do Tomorrow
Jamie Cullum

I finally transcribed this tab, since theres no tab in all of the internet.

Tuning drop D (DADGBE) with cappo in second fret (EBEAC#F#).

This is the tricky part of this chords.

They are usually open chords, this means the last two or three strings are usually played freely.

All chords are really weird so Ill just name them with there main name.

Anyway, hope you enjoy this beautiful piece of music!

Greetings from Argentina!
