

I Got A Woman  
Jamie Foxx

My life is lights, camera, action  
But I get no satisfaction  
Cos my old lady upped and left, about two weeks ago  
Well she upped and just left me  
Damn near took all my money  
But even though she disappeared, one thing she didn't know

Is I got a woman  
Way over town  
That's good to me  
And she gives me what I need

Well it's like she had no feelings  
But she wasn't even willing  
To admit to me that when we made love  
That it didn't move her soul

Then quickly came the problems  
And when we finally hit rock bottom  
Well she thought I died right on the spot  
But I smiled cos she didn't know

I got a womannnnnnnnnnnnnnnnnn way over town  
And she gives me what I need  
I got a woman
