#### Rewind

#### Jamie McDell

Hey :) This is my first time so i hope you like it!

Rewind Lyrics & Acoustic chords

Capo 1st fret

Its really easy just A C G the hole way through

A C G A

I remember waiting for those aeroplanes to cross the sky

Lie in golden grass and savour every moment we re alive

C

A day in summer when the music played a different kind of song

C G

Oh, whoa

(same chord rythem the hole way through... you can make up your own picking if you like)

Nervous whisper as you ask me if I d be your favourite girl The painful memory of singing that we d sail around the world Now I m wondering why I couldn t see how much I had to learn Oh, whoa

### [Chorus]

And rewind five times
So I can make it that we never met
And go back in time
So I can change the day I let you in
Rewind five times

All my memories of you are tinted with a shade of grey Didn t know that I was capable of taking love away Now in winter all I hope for is some day I ll let it go Oh, whoa

[ Lyrics from: http://www.lyricsfreak.com/j/jamie+mcdell/rewind\_21030768.html ] Every part of me is saying I should leave the past behind But the hardest thing is trying to keep your face out of my mind All my energy is wasted on another summer lie Oh, whoa

## [Chorus]

And rewind five times
So I can make it that we never met (we never met, we never met)
And go back in time
So I can change the day I let you in

# Rewind five times

Release me from this never-ending hole You ve started war without a worthy cause You crossed the line, I m ready to let go Erase it all before my mind explodes

[Chorus]

And rewind five times
So I can make it that we never met (we never met, we never met)
And go back in time
So I can change the day I let you in
Rewind five times
[Repeat]

I remember waiting for those aeroplanes to cross the sky
