

## Gravity

Jamie Woon

Hi everyone this is my first tab so I hope you like it:)

intro: **F#m E D** 4x (if you listen to the song you can figure out the timing of the chords pretty easily)

**F#m E D**  
Money is time, time is a currency  
**F#m E D**  
You and I both now who you re spending yours on  
**F#m E**  
You were the one  
**D**  
You cried for infinity  
**F#m**  
But you can t have it all  
**E D**  
No, you can t have it all

**Bm7 G**  
Do I choose to be weighed down by gravity  
**D**  
With these thoughts that I own  
**Bm7 G**  
Oh, I don t like this feeling of jealousy  
**D**  
It s not what I want

--the rest is pretty much the same as above--

I love a girl who loves synchronicity  
Stimulated by nothing more than the meeting of minds  
She s all around  
She s like electricity  
But I can t have her all  
No I can t have her all

Do I choose to be weighed down by gravity  
With these thoughts that I own  
Oh, I don t like this feeling of jealousy  
It s not what I want

She refused to be weighed down by gravity  
Now she s so holding on  
She confided that love it is an energy  
She s passing it on

outro: same as intro, end on **F#m**.
