Tuning: Half-step down (although can be played with standard tuning)

Same chords throughout entire song:

**Bm , A , D , E , G, A , Bm**

While we have oceans  
Rivers that still bring us life  
Reasons to live in the moment  
Hold onto your time

Let your heart go where the wind takes it  
Pure like the raindrops of time  
Follow the path where it takes you  
Straight down the line

Ladies and gentlemen  
Surely we re here in mind  
Watching our spirits dance on the  
On the backs of our lives

How can one sit back and dream it  
I d have no peace in my life  
Climbing these walls in an hourglass  
Prized in our strife

And I have seen worlds filled with wonder  
Lost on my own lonely mile  
Lessons I wish that I had mirrored  
Time after time

Ladies and gentlemen  
Surely we re here in mind  
Watching our spirits dance on the  
On the backs of our lives

While we have oceans  
While we have oceans  
While we have oceans

Rivers that still bring us life  
Reasons to dance in the moment  
Hold onto your time

Come fill up your souls with our blessings  
Hold up your hands to the sky  
Let the whole world know you re out there  
High in our highs

Ladies and gentlemen  
Surely we re here in mind  
Watching our spirits dance on the  
On the backs of our lives
