Verse 1: w/intro riff (Chords for 2nd guitar)

```

Images on the sidewalk speak of dream s decent
1      2      1      2      5      2
Washed away by storms to graves of cynical lament
1      2      1      2      5      2
      Dirty canvases to call my own
1      2      1      2      7      8  9
      Protest limericks carved by the old pay phone

```

Chorus:

```

1      2      3      4      1      2      3      4
      In your picture book I m trying hard to see
1      2      3      4      1      2      3
      Turning endless pages of this tragedy
1      2      3      4      1      2      3      4
      Sculpting every move you compose a symphony
1      2      3      4      5      6  9  2
      You plead to everyone, see the art in me
(2)      6  9  2
      see the art in me      see the art in me

```

Verse 2:

Broken stained-glass windows, the fragments ramble on
Tales of broken souls, an eternity s been won
As critics scorn the thoughts and works of mortal man
My eyes are drawn to you in awe once again

In your picture book I m trying hard to see
Turning endless pages of this tragedy
Sculpting every move you compose a symphony
You plead to everyone, see the art in me

Refrain: 1 9 2 (8x)
