

Something Beautiful
Jars Of Clay

[Verse 1]

F/A **Dm** **G**
If you put your arms around me, could it change the way I feel
F **Dm** **C/E**
I guess I let myself believe that the outside might just bleed its way in
F **Dm**
Maybe stir the sleeping past lying under glass
G/B **Am**
Waiting for the kiss that breaks this awful spell
Dm **Am** **F/A**
Pull me out of this lonely cell

[Chorus]

Am **G/B** **C**
Close my eyes and hold my heart
Dm **C**
Cover me and make me something
Dm **C**
Change this something normal into something beautiful

[Verse 2]

F/A **Dm** **G**
What I get from my reflection isn't what I thought I'd see
F **Dm** **C/E**
Give me reason to believe you'd never keep me incomplete
F **Dm**
Will you untie this loss of mind that easily defines me
G/B
Do you see it on my face
Dm **F/A** **Am** **F/A**
That all I can think about is how long I've been waiting to feel you move me

[Chorus]

Am **G/B** **C**
Close my eyes and hold my heart
Dm **C**
Cover me and make me something
Dm **C**
Change this something normal into something beautiful
C
Into something beautiful
C **Am**
Into something beautiful

[Bridge]

G/B **C** **F/A** **Am**
And I'm still fighting for the word to break these chains

G

And I still pray when I look in your eyes

Dm

You'd stare right back down into something beautiful
