

Church Pew Or Barstool
Jason Aldean

Standard Tuning Capo on 3

[Intro] **D Em** (2x)

[Verse 1]

Not a whole lot going on, a small town Friday night
Revving up at a red light, on your mark get set go
Past a mom and pop restaurant
Same four trucks parked out front
I guess you gotta make your own fun
When you re stuck in a place this slow

There s only two means of salvation
around here that seem to work
Whiskey or the Bible, a shot glass or revival

[Chorus]

When you don t seem to run on either side of the fence
People act like you don t make sense
These big town dreams that I ve been chasing
Will never come true if I wind up staying
And I don t want to fall in, the same rut
That everybody here seems to be stuck in now
Why do I hang around
In this church pew or bar stool kind of town
