Intro: D C G C G C

She was raised up in Jersey,
I said oh Lord have mercy
Never seen a one light town til she moved down here
She said I m so bored out of my mind
Need a Starbucks and a wifi
Or a jet airliner to fly me anywhere
I said do you wanna take a drive in my truck
Don t pay no mind to that 12 point buck
Laid across my hood

[CHORUS:]

You ever been to Rome Georgia
Picked peaches off the trees
Climbed the water tower in Paris Tennessee
Been to Florence Alabama
Drank muscadine wine
Just give me a chance to change your mind
So before you go and fly away girl
Let me show you round a country boy s world
Somewhere between there on a dirt road
When I rolled down my window
