

Autotune

Jason Chen

This song came out yesterday, after being teased for about 3 months. Jason Chen is amazing! Both at songwriting and singing. Enjoy!

Capo 2

C
I was young, lost, stupid,
G **Am** **F**
Didn't know what I was doing wrong
C
Just eat, sleep, feeling free
G **Am** **F**
Then I'd party all night long
C **G**
But I would never get too worried
Am **F**
'Bout the little things in life
C **G**
I knew I'd won the lottery
Am **F**
Cause Baby can't you see

C **G**
Just thinking about you as I sing this song
Am **F**
Cause when you're around I can do no wrong
C **G**
And I'm never too sharp, never flat, Girl imagine that
Am **F** **C**
You always know how to bring me right back
G **Am**
When my pitch is off, you make it alright
F **C** **G** **Am**
When it's all so wrong, you're my auto tune
F **C**
You can be my auto tune

C **G** **Am** **F**
Now I found my way girl, ever since you came along

C **G** **Am** **F**
As I listen to the radio, pumpin to my catchy song
C **G** **Am** **F**
You mean more than a Grammy and all the money in world
C **G**
Every time that I drift off-key girl
Am **F**
You continue to save me
