

Autotune

Jason Chen

This song came out yesterday, after being teased for about 3 months. Jason Chen is amazing! Both at songwriting and singing. Enjoy!

Capo 2

C#
I was young, lost, stupid,
G# **Bbm** **F#**
Didn't know what I was doing wrong
C#
Just eat, sleep, feeling free
G# **Bbm** **F#**
Then I'd party all night long
C# **G#**
But I would never get too worried
Bbm **F#**
'Bout the little things in life
C# **G#**
I knew I'd won the lottery
Bbm **F#**
Cause Baby can't you see

C# **G#**
Just thinking about you as I sing this song
Bbm **F#**
Cause when you're around I can do no wrong
C# **G#**
And I'm never too sharp, never flat, Girl imagine that
Bbm **F#** **C#**
You always know how to bring me right back
G# **Bbm**
When my pitch is off, you make it alright
F# **C# G# Bbm**
When it's all so wrong, you're my auto tune
F# **C#**
You can be my auto tune

Now I found my way girl, ever since you came along
